Date: See website for multiple start dates!

Cost: \$110 per person (The book is included and will be shipped prior to the start of the course.)

Location: Online

Graduate Credit: One semester hour of graduate credit is available for an additional \$150

In the *Global Achievement Gap*, education expert Tony Wagner situates our school problems in the larger context of the demands of the global knowledge economy. With insights gained from interviews with business leaders, review of new research and extensive classroom observations in the country's leading suburban schools, he analyzes performance by considering the skills the next generation will need in the workplace. This is a must-read for anyone interested in seeing our young people achieve their full potential.
