One Graduate Credit
Available for an
additional fee of
\$150.

Facebook, Twitter, LinkedIn, YouTube! The list goes on and on. This media is prevalent in the daily lives of students and teachers. So why not use this media as a tool in your classroom? Use of social networking can benefit students and provide more communication and collaboration among teachers and other educators. This online course will show you how to use this media **safely** in your curriculum.
