

Winter Olympics

Classroom Lesson Plans and Activities

Classroom Lessons "The Science of the Olympic Winter Games"
Now is the perfect time to take a closer look at the secret behind the sports: science and math! Lessonopoly has created student activities and lesson plans to support the video series, [Science of the Olympic Winter Games](#), created by [NBC Learn](#) and the National Science Foundation. Featuring exclusive footage from NBC Sports and contributions from Olympic athletes and NSF scientists, the series will help teach your students concepts like friction and angular momentum.
